PRODUCT MANAGER SUMMARY

- An accomplished professional with 8+ years of experience in the fields of technical product management; communications, leadership, mentoring for change-making and mechanical engineering in merchant navy.
- My outstanding intangible strengths include a high level of attention to detail, user centric design, a great grasp on behaviour science, rapid prototyping and an ever curious learning mindset.
- I am a results-driven, data-oriented professional who consistently delivers high-quality outcomes while maintaining a sharp focus on big picture goals.

WORK EXPERIENCE

Project Tech4dev Product Manager, Glific

August 2023 - Present

- Leading the product team to bring cutting edge AI/LLM integrations (RAG, vision, text to speech, translations) and atleast 2 major user centric enhancements per quarter.
- Implementing measures to make the tech platform compliant to GDPR guidelines.
- Organising 4+ client facing events. Facilitating workshops, talks and showcases to foster a thriving ecosystem of platform users.
- Managing report writing and deliverables for grants from major funders.
- Driving product marketing strategy through LinkedIn and other external communications. Leading to multiple sales leads, ecosystem collaborations and features in top journals in tech for good sectors.

Reap Benefit

September 2019 - July 2023

Various Roles: Program, Product, Communication, Leadership

- Lead a team to leverage behaviour science for nudging climate actions using WhatsApp chatbots. Resulted in acquisition of 15K new users in less than a year with > 50% engagement on the platform. Won recognition by HundrED (2020-21) and WISE (2022-23) for excellence in skill building and education.
- Developed "Changemaker Portfolios" a tech product for young people to visualise the 21st-century skills activated through climate and civic actions.

Anglo Eastern Ship Management Junior Engineer

November 2016 - August 2019

- Ensured compliance to safety, security, and environmental standards set by International Maritime Organisation as a Junior Engineer and a Watch-Keeping Officer on two foreign going cargo vessels.
